It is always hard to say goodbye to close friends, especially the ones who have enriched our lives with their knowledge and kindness. Please join TRiO in wishing well and saying good bye to Heather Boydell and Margie Mclaughlin. They will be leaving us this summer to explore new adventures in their lives.

Fall Courses Offered Through TRiO!

Sign up with Linda for **SD097(Math)** or Jeanette for **SD095 (Science)** support!

Sign up with Don for **SD096 (Computer Applications)** support!

Remember, tutors in the lab and staff in the TRiO office are also available for one-on-one appointments to assist with other courses and individual assignments!

There will be two sections of **SD110 - Application of Learning Strategies**. In this course you are a part of a learning community (a group of students taking common classes) and we can assist you in registering for specific sections of courses that you need.
