

Welcome to the Course Transfer Guide for the Division of Nursing & Health Sciences (NHS). We want to make your transition to LCSC as seamless as possible.

For General Education core, refer to the general transfer guide corresponding to our transfer institutions ([Admissions || Lewis-Clark State College](#)).

This guide includes course equivalencies for program prerequisites and required support courses. Keep in mind the guide includes courses for all NHS programs. Your program curriculum plan lists the prerequisite and support courses.

Note: LCSC general education core requires completion of two Natural Science courses: NU 150 – Introduction to Natural Sciences and a lab science course. NS 150 is unique to LCSC and therefore does not have a direct transfer equivalent. However, if you transfer to LCSC sciences courses from two different disciplines (e.g., CHEM; BIOL; MBIOS; GEOL; PHYS), you will satisfy the NS 150 requirement (Noted as CORE-NS on your Transfer Equivalency Reports available through your WarriorWeb account).

If you have questions, please see your advisor.

Lori Stinson
Chair, Nursing Division
