

Pop Bottle Design Project

Criteria for design:

1. Pop bottles must come from recycle bin or garbage.
2. Outside materials are okay to use if they came from the recycle bin or garbage.
3. Item has to be made from ordinary household tools (no power or battery tools)
4. Item must be 27 ft³ or less in volume.
5. No one can buy anything to make/build this item
6. The item must be useful.
7. Fasteners and adhesives are okay to use on item.
8. Can use as many 2 L and 20 ounce bottles as you want.

Designs are due in B10 Monday morning 9:00 am

Team presentations will give you the opportunity to practice public speaking skills which we will discuss in class
