To Begin:

1) Sign into your Warrior Web. Once you are logged in, go to the Student’s tab, then under the Registration/Student Planning section, choose Student Planning

Step 1

View Your Progress.

"View Your Progress" outlines the course requirements for your major, shows progress in courses completed, and shows which courses you have planned. You can plan courses directly from this list:

- Choose a class from your list of requirements by clicking on the course number:
Once you have selected the course you would like to plan/schedule you can:
“Add Course to Plan”—Adds course to your plan for future semesters

-OR-

“View Available Sections for...” if you would like to see the sections being offered for the current registration period

*Tip: If you have not already planned courses for the upcoming semester, by selecting the “Add Course to Plan” option you can easily view how all of your classes will work together in the “Schedule” section of “Plan and Schedule”

By adding courses to your plan you can select the current registration period or a future semester for which you plan to register for the class. Just select the correct semester in the drop down menu on the pop-up window

And click on “Add Course to Plan”

You may also add courses to your plan that are not required, such as electives by searching via the Course Catalog tab.

Continue Step 1 until you have planned all of the courses you want to plan—the upcoming semester only or the remainder of your program.

Step 2

Under the Plan & Schedule tab you can schedule courses for the current registration period, view your timeline, or contact your advisor:
The **Schedule** tab allows you to schedule courses you have planned for the upcoming semester.

You can view available sections by clicking **View other sections** under the course title.

Hovering over available sections will highlight sections on your Calendar.

*Helpful Tips:*

→ There may be more than one page of available sections. Be sure to look at them all.
→ You can view sections of multiple courses at the same time to make sure they don’t conflict.

1. Click on the course section you wish to add to your schedule.
2. Click **Add Section to Schedule** in the pop-up window
3. Click **Register Now** button on calendar page

*Note: If your “Register Now” button is not dark gray, make sure
1. You have been released by your advisor
2. You have completed the “Conditions of Registration”
3. You don’t have any holds on your account*
**When courses turn green you have registered for the section.**

Don’t forget: You must be released by your advisor and complete the Conditions of Registration prior to registration.

The Timeline tab allows you to view the courses you have completed, the courses you are currently registered for and the classes you have planned for future semesters.
Missing a prerequisite? Student Planning will let you know in both the Schedule and Timeline views:

**Other things you can do in Student Planning:**

- You can search the course catalog
- You can view your ACT/SAT/Compass scores
- You can view your unofficial transcript
- You can view your profile contact information and emergency contacts
