

Biology Minor

The ten minors available in the Division of Natural Sciences & Mathematics are designed to enrich, complement, and/or supplement the formal education of student's major. Students pursuing a degree within the Division of Natural Sciences & Mathematics often find complementary minors a natural fit with their primary course of study.

The minors are not solely, or even primarily, for Natural Sciences & Mathematics majors. Students from many allied programs, including Kinesiology, pre-Nursing and Education, often pursue minors within the Division. Students interested in acquiring a minor for teacher certification should first consult with their academic advisor and the Education Division.

Program Requirements
