Summary of Major Changes incorporated in this revision to the policy: This revision incorporates changes to state policy, updates institutional procedures, and reflects the elimination of the Motor Pool. The document has been condensed to focus on over-arching policy considerations, and detailed instructions for employee travel have been consolidated on the Controller's Office website where they can be updated in real time to reflect the latest guidance from the State or College administration.

Policy Overview:

This policy pertains to employees and students who travel on behalf of the College on official business. While official travel is a normal and necessary part of LCSC operations, travelers and supervisors are advised to apply care in planning, conducting, and documenting travel. Travel may involve inherent risks for the traveler as well as for the College's mission and reputation. Inadequate planning and questionable decisions on official travel by government organizations throughout the nation have made this area a high visibility issue for lawmakers and the American public. In light of these concerns, travel arrangements must be reviewed and approved by LCSC authorities in a systematic process as described in the detailed procedures, which accompany this policy (these detailed, current procedures are located on the Controller's Office website at the link provided below). For example, in light of the expense of travel and to ensure adequate oversight of public resources, Presidential approval is needed for out-of-state travel. Overseas travel entails potential risks and significant expenses. Employees (including those accompany student groups on overseas travel) should consult with the LCSC International Programs Office for a detail briefing before planning and embarking on travel outside of the United States. LCSC travelers should use due care and caution when traveling either domestically or overseas and should carefully consider any applicable safety and insurance-related issues during trip planning. Assistance on insurance considerations is available from the LCSC Risk Management Coordinator (2240). With adequate planning and good coordination, official travel should, and can, be a rewarding and highly productive component of unit operations in support of the College's mission.

SUBJECT: Travel

The Typical Travel Cycle:

- Employee/supervisor determines travel is needed and pre-plan details of the trip
- Travel Authorization is completed, outlining arrangements and cost – supervisor(s) approve
- (If needed) Travel advance issued
- Travel takes place
- Upon return, employee completes and supervisor signs Travel Expense Claim form
- Employee is reimbursed for expenses
- Records are filed and retained

Travel Authorization and Expense Reimbursement:

It is College policy to pay for reasonable and necessary travel expenses incurred as a result of official College business. The travel policy applies to all travel conducted by College employees and students that involves College reimbursement or liability. Individuals should neither gain nor lose personal funds as a result of expenses associated with approved business travel.

- In order for travel expenses to be reimbursed by the College, the expenses must be incurred relative to official LCSC business and documentation standards set forth in the Lewis-Clark State College *Travel Policy and Procedures Manual* must be met. These standards apply to all College funds; including but not limited to budgeted state funds, discretionary local funds, grant and contract funds, and auxiliary enterprise funds
- Travel expenses incurred by part-time employees may be reimbursed at the discretion of the department director following the same guidelines that apply to full time employees
- For students to be reimbursed for travel expenses, the expenses must occur at the request of the College, under the control of the College, and for the benefit of the College. See the *Travel Policy and Procedures Manual* (link below) for specifics
