The top of the evaluation shows your name, program, catalog year, and anticipated completion date. This date appears only if you have submitted a graduation application.

This Program Evaluation is for advising and student use only. Although efforts have been made to ensure the accuracy of this evaluation, STUDENTS ARE RESPONSIBLE for the completion of graduation requirements.

*
 The Registrar's Office will certify all students as completing graduation requirements.

*
 The Family Education Rights and Privacy Act of 1974, as amended, prohibits the release of this evaluation or disclosure of its contents without the written consent of the student.

Program Evaluations are to be used to assist you in completing your program. An evaluation is not a substitute for an official transcript. A completed status for an overall program *does not indicate that you have graduated*, just that the requirements for the program are complete.

Total credits accepted from all 2-year colleges combined = 70.
 Total credits accepted from North Idaho College = 85.
 Total credits accepted from all colleges attended = 96.

CORE-ST in the other courses section means upper and lower core complete. Disregard missing requirements in the core.

*
CORE-ID in the other courses section means lower core complete. Disregard missing requirements in the lower core. Upper division core 350/351 is still required.

*
 Courses marked *RI are remedial and are ruled ineligible for graduation. **Subtract *RI earned credit from Totals.**

IMPORTANT

Note the numbers of credits that LC will accept as transfer credits.

In addition, pay close attention to whether or not CORE-ST or CORE-ID appears on the evaluation as these indicate core completion.

Lastly, remedial courses (numbered under 100) do not count toward your graduation total.

If this Program Evaluation is being attached to your graduation application, obtain signatures required below. Secondary Education and Interdisciplinary majors require 2 advisors.

*E Extra - Either this course is not needed to complete this requirement, or else applying it would not have contributed anything toward the requirement's completion

*U Used! - has already been used elsewhere

Troubleshooting: 'No report was generated' means that you do not have a catalog year assigned. To assign a catalog year, you must submit a PIF to the Registrar's Office. 'No requirements associated with the program . . .' means that the coding has not been completed for that particular program. Catalog years are dated back to 2002-03.
