## **CONSORTIUM AGREEMENT**

A consortium agreement is an agreement between two colleges/universities to consider credits taken at both institutions in determining federal financial aid eligibility. The Home Institution is the degree-granting institution that will administer financial aid. The Host Institution is the institution where the student is registered in additional credits. In order to receive federal financial aid for credits taken at both institutions, you must complete this form and return it to the Financial Aid Office at your Home Institution.
