Tune in to Turnitin!

Due to Turnitin purchasing Unicheck, the plagiarism tool for Canvas Assignments has changed! If your Canvas Assignments used Unicheck, you'll need to re-enable the feature by selecting "Turnitin" for plagiarism reporting in each assignment's settings. All previous Unicheck submissions in LC Canvas were migrated! Read more about Turnitin here!

Respondus LockDown Browser

If you use RLDB, each semester you need to click on the LockDown Browser tool link in your course menu to refresh the settings. Failure to do this can cause issues when students begin taking quizzes and exams that use RLDB.

Best practices for RLDB include:

- 1) DO NOT allow students to use iPads or Chromebooks
- 2) Disable "one time view of exam results"
- 3) Notify the Testing Center of updated quiz passwords

Workshops at the CTL

We're doing a *Google Workspace* series of workshops this fall! Check the CTL weekly newsletter for dates and times! Recordings will be available.

Welcome to Fall 2023!

eLearning Services had a busy summer! Dawn, Angela, Carrie, and Alex attended InstructureCon 2023 in Denver to learn all about the recent updates to Canvas and new features coming in the future! AI and ChatGPT were the hot-button topics at the conference, and we were excited to be part of the many conversations about how this technology can be harnessed for good in Higher Ed.

Stay tuned to the CTL Weekly Newsletter for information on a workshop about the AI detection features in Turnitin, the new plagiarism detection tool in Canvas (See sidebar.)

eLS is hiring for a third full-time Instructional Designer! This hire will result in a shift of responsibilities in our office:

- Angela will remain the lead ID for the School of Professional Studies and the Adult and Juvenile Corrections programs
- Carrie will take over as the lead ID for Career and Technical Services and Staff Courses
- The new hire will be the lead ID for the School of Liberal Arts & Sciences and the Library

Canvas Updates

Here's a list of links to more information about some of the most recent updates to Canvas. Spend some time checking out these new features and be sure to email your Lead Instructional Designer if you have questions!
