

The University of Idaho and Lewis-Clark State College

Articulation Agreement

University of Idaho
A LEGACY OF LEADING

**Articulation Agreement between
University of Idaho, College of Engineering and
Lewis-Clark State College, Division of Natural Sciences and Mathematics**

This is an Articulation Agreement between the Board of Regents of the University of Idaho (UI or “university”) and Lewis-Clark State College (LCSC). It establishes a framework for collaboration between our two institutions in the study of engineering. This agreement will facilitate the transition of LCSC engineering students who have completed the Engineering (A.S.) degree into a UI baccalaureate degree program in the College of Engineering.

General Provisions:

- The program detailed in this Articulation Agreement (“Agreement”) will begin upon signing by both parties and is subject to review whenever either party makes curricular changes that impact this program, or modifies admissions criteria. Any agreed changes to the program must be expressed in writing and signed by both parties.
- The Initial term of this Agreement shall be five years from the date of the last signature. The parties agree to review the Agreement for revision and renewal during the fifth year of the Agreement.
- Either party may terminate the Agreement with six months advance notice in writing. In the event the Agreement is terminated, students already in the program will be allowed to finish their course of study.

It is understood that specified credits earned by LCSC students will be accepted by the UI College of Engineering. Only courses with a grade of D or better will be awarded credit by UI, excluding remedial courses, but all coursework will be recorded on the student’s transcript. Some UI programs may require a higher grade than D to receive credit for certain course or program requirements.

Students are required to have a GPA of 2.8 (on a 4.0 scale) or its equivalent, as determined by the university, from LCSC and any other postsecondary institutions attended, for admission to the program. This Agreement does not guarantee admission to the university or a specific degree program or area of emphasis.

Degrees:

Students meeting the university’s requirements for admission, and successfully completing all of the required courses with required grades, and any other requirements for this program and of the university catalog, will qualify for a baccalaureate degree from UI.

This Agreement shall be considered an extension of the university catalog and incorporates its provisions.

Resources:

Each institution will identify staff to support this collaboration. Staff will be used primarily to manage the academic activities including, but not limited to, reviewing applications as well as advising and identifying potential students for the program.

Roles and Responsibilities:

Professor _____, College of Engineering at the University of Idaho and Professor Jennifer Light, Division of Natural Sciences and Mathematics at Lewis-Clark State College are the main contact persons and are designated responsible for coordinating the relevant collaborative activities.

Name: Dr. Joseph Law
Title: Associate Dean
College Name: Engineering
University of Idaho
Address: 875 Perimeter Drive MS 1011
Moscow, ID 83844
Phone: 208-885-7230
Email: joel@uidaho.edu

Name: Jennifer Light
Title: Associate Professor
Division Name: Natural Sciences and Mathematics
Lewis-Clark State College
Address: 500 8th Avenue
Lewiston, ID 83501
Phone: 208-792-2796
Email: jlight@lcsc.edu

Outcomes:

We expect a high level of student success and will monitor closely to make sure that student schedules and support structures assure that outcome.

Assumptions:

Neither institution will be responsible for any conditions or situations outside their control.

Circumstances may arise that cause this Agreement, or certain sections hereof, to become inoperative. These circumstances may include, but are not limited to, changes in state law, changes in governing board policy, changes in accreditation policy, changes in programs, or other changes taking place at either institution. In the event that one or more sections of this Agreement become inoperative or invalid, the remainder of the Agreement shall not be affected, and each term and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law. The parties intend that if any provision of this Agreement is capable of two constructions, one of which would render the provision void and the other of which would render the provision valid, the provision shall have the meaning that renders it valid.
