Complete all required/elective coursework for the AAS degree at the College of Southern Idaho.

- This advising guide is based on completion of an Associate's of Applied Science degree in Radiologic Technology at the College of Southern Idaho with additions made to meet lower division requirements. These plans assume that students will complete the Associate's prior to transferring to LCSC (in some cases, students may be dually-enrolled at CSI and LCSC).
- Students are required to pass the ARRT National Registry Exam before receiving the BA/BS degree at LCSC. Completetion of both the Associate's and the ARRT National Regristry Exam allows students eligibilty to purchase 10 escrow credits for this experience reflected in RS 363 Applied Radiography III.
- Students who transfer without being core complete may need to take additional LCSC General Education core courses.
- 32 Residency (LCSC) credits required for graduation/36 must be upper division. To meet this requirement students may purchase credits in Escrow.

At CSI a minimum grade of "C-" is required for Gen Ed courses and a minimum 2.0 GPA is required to qualify for Associate's Degree.
