

Lewis-Clark valley community members,

Advanced Hospice of Northern Idaho is growing quickly and looking for volunteers to help us provide excellent care to our hospice patients. Whether you find joy sitting with and providing emotional support to patients and families in difficult times, or assisting hospice staff in the office with daily needs, you can make an important difference.

You do not need any previous experience working with hospice patients, or even a medical background. Volunteer training is provided and you will be surrounded by an exceptional and supportive hospice team. You will be a valued member of our team!

We are located at 2852 Juniper Dr. Lewiston, ID 83501. We serve patients and their families in the region both in their homes and in care facilities. In addition, we provide bereavement support to family and friends after the death of their loved one. This is also a volunteer opportunity for those who are passionate about supporting families during their grief journey.

If you are interested in becoming one of our volunteers, please contact Amanda Hindberg, MSW at 208-301-8868 or the Advanced Hospice office at 208-769-0500. We look forward to meeting you and welcoming you as an important part of our team!

Sincerely,

Amanda Hindberg, MSW  
Social Worker, Bereavement Coordinator, Volunteer Coordinator
