

Steps to download Read and Write

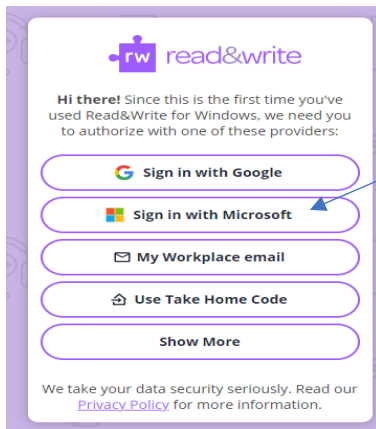

1. Navigate to [Texthelp.com](https://academy.texthelp.com/read-and-write-education/student-resources/) (https://academy.texthelp.com/read-and-write-education/student-resources/)
2. You are now on the Read&Write student resources page.
3. Scroll down the homepage until you see download and install options.

4. Please either choose WINDOWS US OR MAC depending on the device you are downloading the tool onto. (You may also install onto other devices as well).
5. Once you select WINDOWS US OR MAC the download on your device will begin.
6. Once the download is complete, a small Read&Write puzzle piece will appear on your screen.

7. When you select the puzzle piece, a new web browser will open, and it will ask you for your log-in information. Please log in with your students.lcstate.edu account.

That's it! You should now have the full features of Read&Write on the device of your choice.

Please reach out to Autumn with LC State Accessibility Services 208-792-2677 if you need any guidance with downloading or using Read and Write.
