This advising guide is based on completion of the Radiography Technology - Associate of Applied Science at North Idaho College with additions made to meet Idaho GEM Core requirements. Major credits may not duplicate General Education courses.

This agreement provides for escrow credits, which are a means for students to be granted academic credits for previous radiographic science knowledge. There is a fee of \$20.00 per escrow credit to have these credits appear on the student's transcript. NIC students taking only the minimum credits required for their AAS may need additional escrow credits.

*Students are required to pass the ARRT National Registry Exam before receiving the BA/BS degree at LC State. Completion of these requirements transfer as equivalent to RS 363 Radiographic Methods III for 10 credits.
